What Makes Angel Staffing Better?

We staff *local* professionals for *local* positions. This contributes to the continuity of care for patients in your facility. Being a nurse-owned company allows Angel Staffing insight to the concerns of the industry and the difficulty staffing Texas hospitals.

Angel Staffing focuses on in-patient care facilities and *not* home health. Therefore, you receive specialized attention and dedication to your staffing needs.

By offering excellent benefit packages and top pay to our "Angels" we are able to build lasting relationships and keep them coming back to your facility.
